Brief description of the activities

During the Journal Club, PhD students will present in English scientific papers related to the topic of their doctoral research. After the presentation, the students will briefly summarize the article in 3 minutes with one single slide. Afterwards, the presented article will be discussed with the other participants.

Who

PhD students in Public Health and Lifestyle will present a scientific paper.

When

Meetings will take place every three weeks on Thursdays.

Where

In-person, at the Department of Public Health and Experimental and Forensic Medicine (classroom to be defined).

Open to

Tutors, PhD students, and research assistants from the University of Pavia.
